Re: Statement of Qualifications and Performance Data for Legal Services - 2027

Dear Ms. Gard:

We note the City's recent advertisement for receipt of "Statement of Qualifications and Performance Data" for professional services, including legal services, for the year 2027. On behalf of the firm of Daily & Woods, P.L.L.C., we respectfully request that the information in this letter and its attachments be filed as our "Statement of Qualifications and Performance Data" and be considered by the City for the year 2027.

We are enclosing a description of the educational and professional experience of the attorneys in the firm taken from the website of Daily & Woods, P.L.L.C. All of the attorneys in our office are licensed as attorneys in the State of Arkansas and are actively engaged in the practice of law in the City of Fort Smith. Because of our providing legal services to the City in the immediate past, all of the attorneys in our office have experience in areas of law material to the representation of the City, and some of the lawyers in our office are among those most experienced in the State of Arkansas in the areas of municipal corporation law.

As you know and as the records of the City reflect, the lawyers of this firm have provided legal services to the City since shortly after the adoption of the city administrator form of government in Fort Smith in 1967. We believe that this experience gives us valuable insight to the areas of law with which the City must deal and insight into the ongoing activities of the City. We believe such insight creates substantial efficiencies in our providing legal services for the City. We also note our firm's continued, direct involvement in some of the more significant capital improvements projects undertaken by the City in the past several years. The City continues to expend substantial sums on major capital projects, including streets and major utility facility expansions, including the obligations of the Consent Decree regarding the City's sanitary sewer system. We believe our experience from past involvement in said projects makes us uniquely qualified to continue to provide legal services to the City.
